

# Summertime

Many long vowel sounds Set 5

On June days Mike and Shane like to be busy.

---

They often take their super bikes on long rides

---

across Wales. Today they plan to ride up some

---

local hill slopes and down along winding lanes.

---

Yesterday, a spoke from one of the bikes broke

---

off and the sharp spike stabbed one of the tyres.

---

Then a stone or piece of wire made another hole.

---

They hope it won't happen again today!

---

They set off. After a while they climb over a

---

wide stile into Snake Wood. The snakes like to

---

be left alone. A pale sun shines down and being

---

tired they laze in some shade by the lake. After

---

a rest they ride back and arrive at home at five.

---

They also quite like to drive to the ice rink for a

---

skate. They take their size nine white boots.

---

Back home in the garden they take piles of paper

---

and rake up pine-cones and make a fire. They

---

hate the plumes of smoke and ash flakes!

---

They have time to bake a huge plate of cakes

---

but by mistake they make the cooker too hot!

---

Anyway they decide to use their mobile phones

---

to invite some mates to tea and write a note to

---

another friend in code so his sister can't read it.

---

Later, they play the same rude computer games

---

as usual until their thumbs are sore and shaky!

---

For supper they have rice cakes, chocolate flakes

---

and pineapple fritters with milk shakes then Tizer

---

and Coke with a nice tube of ice cubes to make

---

the drinks cold. Simon, the peke, has a bone.

---
